INDIAN HOUSING PLAN/ANNUAL PERFORMANCE REPORT

(NAHASDA §§ 102(b)(1)(A) and 404(a)(2))

This form meets the requirements for an Indian Housing Plan (IHP) and Annual Performance Report (APR) required by the United States Department of Housing and Urban Development. In addition to these requirements, a tribe or tribally designated housing entity (TDHE) may elect to prepare a more comprehensive IHP. If a tribe or TDHE elects to prepare a more comprehensive IHP, the required elements of this IHP must still be submitted on the prescribed HUD form. The information requested does not lend itself to confidentiality.

Regulatory and statutory citations are provided throughout this form as applicable. Recipients are encouraged to review these citations when completing the IHP and APR sections of the form.

Under the Native American Housing Assistance and Self-Determination Act of 1996 (NAHASDA) (25 U.S.C. 4101 et seq.), HUD will provide grants, loan guarantees, and technical assistance to Indian tribes and Alaska Native villages for the development and operation of low income housing in Indian areas. Grants will be made to eligible recipients under the Indian Housing Block Grant (IHBG) program. To be eligible for the grants, recipients must submit an IHP that meets the requirements of the Act. The recipient is required to submit the IHP to HUD at least 75 days prior to the start of its 12-month program year (NAHASDA § 102(a)(1)). The APR is due no later than 90 days after the end of the recipient's program year (24 CFR § 1000.514).

The IHP and the APR (previously two separate forms) are now combined into one form. The sections pertaining to the IHP are submitted **before** the beginning of the 12-month program year, leaving the APR (shaded) sections blank. If the IHP has been updated or amended, use the most recent version when preparing the APR. After the 12-month program year, enter the results from the 12-month program year in the shaded sections of the form to complete the APR. More details on how to complete the IHP and APR sections of the form can be found in the body of this form. In addition, a separate IHP and APR report form guidance is available.

FORM COMPLETION OPTIONS: The IHP/APR form may be completed either in hard copy or electronically. Hard copy versions may be completed either by hand or typewriter. Alternatively, the form may be completed electronically as it is a Word document. It is recommended that the form be completed electronically because it is more efficient to complete, submit, and review the form. Furthermore, electronic versions of the form may be submitted to HUD as an email attachment. To document official signatures on the electronic version, you should sign a hard copy of the pages and either fax that signed page or email it as an attachment to your Area Office of Native American Programs. The sections of the IHP that require an official signature are Sections 1 and 8, and Sections 15 and 16, if applicable. For the APR, Section 1 requires an official signature.

Public reporting burden for the collection of information is estimated to average 62 hours, 25 hours for the IHP and 37 hours for the APR. This includes the time for collecting, reviewing, and reporting the data. The IHP data is used to verify that planned activities are eligible, expenditures are reasonable, and recipient certifies compliance with related requirements. The APR data is used to audit the program accurately and monitor recipient progress in completing approved activities, including reported expenditures, outputs, and outcomes. This agency may not collect this information, and you are not required to complete this form unless it displays a currently valid OMB control number.

CIHA owns and operates 69 affordable housing units on Coquille Tribal Lands including 52 rentals, 1 emergency housing unit, and 16 homebuyer units. Low Rent program participants are transitioned to the Home Grant and Occupancy (HomeGO) homebuyer program as they become qualified. In addition, the Monthly Housing Assistance Payments (MHAP) program offers 40 tenant-based rental assistance slots to low income Coquille and other Native American and Alaska Native households throughout the Tribe's five-county service area.

Awareness and utilization of the Section 184 Indian Housing Loan Guarantee Program is promoted regularly at Tribal events. Application to the program is facilitated for qualified low income Coquille and other Native American and Alaska Native families within the Tribe's five-county service area, as well as access to Individual Development Accounts, homebuyer education, credit counseling, and other services.

- (4) **Geographic Distribution** *(Describe below how the assistance will be distributed throughout the geographic area and how this geographic distribution is consistent with the needs of low income families. NAHASDA § 102(b)(2)(B)(i):*

CIHA provides services within the Coquille Indian Tribe's five-county service area which includes Coos, Curry, Douglas, Jackson, and Lane Counties. The distribution of assistance fluctuates but generally mirrors the distribution of the Tribal population within the service area. The majority of CIHA's services are concentrated on Coquille Tribal Lands in Coos County.

IHP: PLANNED PROGRAM YEAR ACTIVITIES (NAHASDA § 102(b)(2)(A))

For each planned activity, complete all the non-shaded sections below. It is recommended that for each program name you assign a unique identifier to help distinguish individual programs. This unique number can be any number of your choosing, but it should be simple and clear so that you and HUD can track tasks and results under the program and collect appropriate file documentation tied to this program.

- One way to number your programs is chronologically. For example, you could number your programs 2011-1, 2011-2, 2011-3, etc.
- Or, you may wish to number the programs based on type. For example rental 1, rental 2, homebuyer 1, homebuyer 2 etc. This type of numbering system might be appropriate if you have many programs that last over several years.
- Finally, you may wish to use an outline style of numbering. For example, all programs under your first eligible activity would start with the number 1 and then be consecutively numbered as 1.1, 1.2, 1.3, etc. The programs under the second eligible activity would be numbered as 2.1, 2.2, 2.3, etc.

APR: REPORTING ON PROGRAM YEAR PROGRESS (NAHASDA § 404(b))

SELF-MONITORING REPORT

INTRODUCTION

An Annual Compliance Assessment of the Coquille Indian Housing Authority's (CIHA) Indian Housing Block Grant (IHBG) program was completed on August 14, 2014 covering the program year 2014. The assessment was conducted as required by the Coquille Indian Tribe's Self-Monitoring Policy adopted by Tribal Council Resolution CY0254 and in accordance with the requirements of the implementing regulations of the Native American Housing Assistance and Self-Determination Act of 1996 (NAHASDA) found at 24 Code of Federal Regulations (CFR) Part 1000.502. JWILLIS INC. and CIHA utilized the HUD Office of Native American Programs Monitoring Plan checklists to complete the assessment.

An outside consultant from JWILLIS INC. conducted the assessment with the assistance of the following individuals, who currently serve as the Monitoring Committee:

- Anne Cook, Executive Director; Marcy Chytka, Accounting Services Coordinator; Debbie Dennis, Administrative Services Coordinator; Lyman Meade, Deputy Director; Dale Herring, Housing Programs Coordinator

Areas Reviewed:

- | | |
|--|---|
| 1. APR and IHP | 8. Relocation and Real Property Acquisition |
| 2. Organization and Structure | 9. Lead-Based Paint |
| 3. Environmental Review | 10. Section 504 Accessibility |
| 4. Other Programs – ICDBG | 11. Maintenance and Inspection |
| 5. Financial and Fiscal Management | 12. IHBG Self-Monitoring |
| 6. Procurement and Contract Administration | 13. Admissions and Occupancy |
| 7. Labor Standards | 14. Subrecipient Agreements |

The Monitoring Committee and reviewer chose to classify review results in three ways:

1. Recommendations – Suggested improvements to existing procedures which are not deficiencies but which could assist management and staff in improving the performance of the organization.
2. Concerns – Deficiencies in performance but not violations of statutory or regulatory requirements. Recommendations are provided for correcting any areas of concern.
3. Findings – Clear violations of statutory or regulatory requirements. Findings require corrective action.

ASSESSMENT RESULTS

1. APR and IHP

Jimmy Willis of JWILLIS INC (Consultants), an outside consulting firm, interviewed Anne Cook, Executive Director, to review the Authority’s IHP and APR compliance. He also reviewed the files and documents which addressed this area. No recommendations, concerns, or findings were noted in this area.

2. Organization and Structure

Jimmy Willis of JWILLIS INC (Consultant), an outside consulting firm, interviewed Anne Cook, Executive Director, to review the organization and administration of the programs. He also reviewed the Authority’s files and documents which addressed this area. No concerns or findings were noted in this area, but the following management improvement is suggested:

Recommendation

Authority’s Policies Could Be Improved

The Authority’s policies are re-examined each year against any new statutory and procedural requirements to ensure they are compliant with current HUD rules and regulations. In all areas addressed by this self-monitoring assessment it was noted that procedures are followed that address the Authority’s obligation to comply with NAHASDA rules and regulations.

While existing procedures are satisfactory and comply with statutory requirements, the Authority should continue to strive to achieve comprehensive revisions of its Financial and Fiscal Management and Admissions and Occupancy policies as time permits.

3. Environmental Review

The Consultant interviewed Anne Cook, Executive Director, to review the Authority’s environmental review compliance. He also reviewed the Authority’s environmental review records to determine if they were accurate and appropriate for the activities performed during the review period. No recommendations, concerns, or findings were noted in this area.

4. Other Programs – ICDBG

The Consultant interviewed Anne Cook, Executive Director, to review the Authority's compliance with ICDBG requirements. The consultant also read and reported to the Authority through the course of the year on its monthly financial statements, which encompass all financial activities of the Authority including the ICDBG project. During the self-monitoring engagement he reviewed the final Roofing Rehabilitation and Solar Lighting Project report dated December 31, 2013 against the work performed. No recommendations, concerns, or findings were noted in this area.

5. Financial and Fiscal Management

The Consultant interviewed Marcy Chytka, Accounting Services Coordinator, and Anne Cook, Executive Director, to determine present procedures. The consultant noted that the Authority's financial auditors performed extensive testing of the financial and fiscal management area this year and reported no exceptions; that the Consultant in performing his monthly reading of the financial statements reported no adverse comments concerning their accuracy; and, that the Consultant further found no exceptions in his testing of individual transactions. Thus it was concluded that no additional testing was necessary beyond those performed. No concerns or findings were noted in this area, but the following management improvements are suggested:

Recommendations**Requirement to Calculate Program Income on the Cash Basis**

The FY 2012 self-monitoring report noted that HUD requires that the cash basis method be used in calculating program income for 1937 Housing Act rental units. The Authority calculates its program income allocation on the accrual basis rather than the cash basis. Because of the excellent record the Authority has with collection of its receivables each month, the difference between these two amounts for purposes of computing program income is not material. The Accounting Services Coordinator was informed of this requirement and advised to monitor this area should the situation change (i.e. significant change in beginning and ending of year receivables). She has made a note of this requirement and will convert to the cash basis if tenant receivable balances warrant such a change.

PILOT Agreement

As noted in prior reports, the Authority is compliant with the intent of the local cooperation agreement and exemption of taxation provisions of NAHASDA in that its properties have been exempted from taxation by the local governing body of the jurisdiction in which the housing development is situated (the County) and that it makes payments in lieu of taxes in an amount that meets statutory requirements. However, it makes those payments pro rata to individual service providers rather than to the County. This arrangement was established at the time of the initial development of the Authority's 1937 Housing Act units. HUD's monitoring of this arrangement in FY 2013 concluded that this methodology was satisfactory in meeting the spirit of the requirement. To this point, the Authority is satisfied with the current arrangement. HUD NWONAP offered to assist the Authority if it desires to enter into discussions with the County to change the current arrangement.

6. Procurement and Contract Administration

The Consultant interviewed Debbie Dennis, Administrative Services Coordinator, and Lyman Meade, Deputy Director, to determine present procedures. The outside auditors also review this area during their audit engagement. The consultant conducted a test of all procurements over \$5,000 to determine if proper procedures were used for expenditures in excess of the Authority's micro purchase policy. He also reviewed items under this threshold for compliance. No concerns or findings were noted in this area, but the following management improvement is suggested:

Recommendation**Identification of Selected Vendors Could Be Improved**

While all procurements reviewed were selected by appropriate Authority policy, some selections from those in excess of the micro procurement process did not appear to clearly demonstrate the reason for procurement choices. Upon closer review, however, it was determined that they were in fact selected by appropriate procedures. The Consultant recommends procedures be adopted to more clearly identify the reason for the choice of a particular vendor.

7. Labor Standards and Construction Management

The Consultant interviewed Lyman Meade, Deputy Director, and Debbie Dennis, Administrative Services Coordinator, to determine present procedures. Mr. Meade indicated that the Authority uses HUD-determined or Davis-Bacon wage rates as dictated by the type of work. Ms. Dennis provided documentation for one case of a required certified payroll during the year to indicate the Authority is following required procedures in this area. She stated that the testing performed by the Consultant in the prior year essentially covered this area as no significant additional work was done this year. The Consultant has determined that no additional review is warranted in this area and no recommendations, concerns, or findings were noted in this area.

8. Relocation and Real Property Acquisition

The Consultant interviewed Dale Herring, Housing Programs Coordinator, and Anne Cook, Executive Director, to review the Authority's compliance with relocation and property acquisition requirements. No recommendations, concerns, or findings were noted in this area.

9. Lead-Based Paint

The Consultant interviewed Dale Herring, Housing Programs Coordinator, to determine present procedures. He also tested files for compliance with applicable laws and regulations concerning this area. The one item in the prior self-monitoring report that required action by the Authority was addressed and corrected. The units of all participants in the Monthly Housing Assistance Payments (MHAP) tenant-based rental assistance program that had children under the age of 6 in the household and lived in homes built before 1979 were tested for lead-based paint issues by a qualified inspector. It was determined by the inspector that none of these residences had lead-based paint issues and a report was placed in each one of the residents files certifying this fact. For any new applicants, research is done to determine if they require inspection and then inspections are completed before admitting the applicants to the program. Based on the tests performed and the new procedures instituted in this area, no recommendations, concerns, or findings were noted in this area.

10. Section 504 Accessibility

In prior self-monitoring engagements, it was noted that the Authority has compliance issues with respect to its conformity with Section 504 accessibility rules. A legal review revealed that in the initial construction of the reservation units in the 1990s, the Authority did not build the required number of Section 504 compliant units to meet the requirements of this statute.

During the current fiscal year, the Authority continued its efforts toward achieving full compliance with these rules. The occupants of the converted residential unit noted in a prior report still prefer that the minor adjustment required to the width of a closet be performed when they vacate the unit. The one required adjustment to the restroom in the administrative office was completed. Additionally, during the current fiscal year, another unit was converted to full compliance, moving the Authority closer to full conformity with Section 504 requirements.

It is the Authority's plan to continue to work toward full compliance as units that can be converted at a reasonable cost become available. It is the Authority's goal to convert or construct additional units as funding is available. In the interim, in accordance with 24 CFR 8.4 (b) (1), other actions will be taken to ensure residents with needs under the Act receive specific modifications to their units as necessary.

11. Maintenance and Inspection

The Consultant interviewed Lyman Meade, Deputy Director, to determine present procedures. Files were reviewed for compliance with laws and regulations concerning this area. The Consultant commends the Authority for its work to integrate and computerize the entire area of work orders, annual inspections, and preventive maintenance activities into one comprehensive and controlled system. The process will promote efficient time management and use of available manpower and increase the overall effectiveness of this important function of the organization. No recommendations, concerns, or findings were noted in this area.

12. IHBG Self-Monitoring

The Consultant interviewed Anne Cook, Executive Director, to review the Authority's self-monitoring program. In the prior year's HUD monitoring and self-monitoring reports, it was recommended that the Authority consider entering into a Self-Monitoring Mutual Agreement (SMMA) with HUD. Such an agreement would allow CIHA to be monitored on a less frequent basis than currently required. No other recommendations, concerns, or findings were noted in this area.

13. Admissions and Occupancy

The Consultant interviewed Dale Herring, Housing Programs Coordinator, to determine present procedures. The Authority's auditors examined at least 1/3 of the files from each category and their testing found no exceptions, therefore the Consultant felt that additional testing could be limited in this area this year. In that testing, no exceptions were found. No recommendations, concerns, or findings were noted in this area.

14. Subrecipient Agreements

The Authority has no subrecipient agreements.

CONCLUSION

JWILLIS INC. and the Monitoring Committee concur that the IHBG program is well managed and substantially in compliance with the requirements of NAHASDA. There are two special items of interest that should be noted. The first is the Authority's continued control over resident receivables. In the current fiscal year, the increase in Tenant Accounts Receivable (TARs) was 2%, which is an exceptional accomplishment in subsidized housing. The second is the Authority's recognition as one of the 100 Best Green Companies to Work For in Oregon by Oregon Business magazine.

It is suggested that CIHA consider any recommended improvements provided by JWILLIS INC. and the Committee for possible implementation. JWILLIS INC. and the Committee thank all those that participated for their cooperation and assistance in completing the annual compliance assessment.

Respectfully submitted,

JWILLIS INC. and the Monitoring Committee
