September is National Preparedness Month

National Preparedness Month (NPM) is recognized each September to promote family and community disaster planning.

The 2022 NPM theme is:
"A Lasting Legacy".

The chaos the COVID-19 pandemic created hit our nation hard and fast. It changed the way we live, work, and interact in our communities. Pandemic 'panic-buying' created food and other supply chain shortages. Even sheltering in place was challenging if you didn't have an adequate supply of food, water, and daily necessities.

If you and your family were prepared for an emergency, the pandemic was probably more of an inconvenience than a panic-causing event.

If you weren't prepared for the pandemic, hopefully you are now or are in the process of becoming prepared.

Emergency preparation is easy. It is as easy as following a list and putting together your supplies. There are many step-by-step guides that can be found on the internet, as well as numerous YouTube videos.

If you don't know where to start, log on to:

ARE YOU PREPARED?

Prepare and PRACTICE what you will do in any emergency. Build on and update your plan, at the very least, on an annual basis.

Discuss the various disasters that could affect your family with your family, e.g., fire, earthquake, tsunami, power outage, terrorist attack, pandemic, etc.

Make a plan with your family on what to do in each emergency.

Pack a "Go Bag" for every family member. *Your "Go Bag" should be with you wherever you are (home, work, vacation, etc.).*

Don't let the next emergency or disaster catch you unprepared.

DON'T PREPARE TOMORROW, MAKE PLANS TODAY!
