

## Changes to Upcoming Impacts • April 29, 2024

### Ko-Kwel Wellness Center Main Parking Lot Entrance Closure

Weather is wreaking havoc on the Shishda Haws sitework schedule this week. For trench safety, the work associated with the sewer line trenching and construction needs to have at least three days of no rain. The forecast does not provide for a break in weather for some time. Currently, the work and associated **Ko-Kwel Wellness Center secondary parking lot entrance closure is being postponed. The entry will remain open until a later date when the work can be completed.** Updates will be sent out as those dates solidify.

## Foundation Pour - Early Morning Work Hours

The weather has also pushed the foundation pours. The dates have shifted to the early morning hours of **Wednesday, May 1<sup>st</sup>, Thursday, May 2<sup>nd</sup>, and Friday, May 3<sup>rd</sup> beginning at 5am.** The concrete trucks will use the main Ko-Kwel Wellness Center entrance to enter/exit the site as the Secondary entrance will be closed. The trucks will be backing into the site for these pours and back-up alarms will be heard as well as the noise of the trucks themselves. The site will be lit with work lights directed towards the Ko-Kwel Wellness Center to avoid lighting neighboring residences. Crews will do their best to keep noise and disruptions to as little as possible.

We recognize that these disruptions are uncomfortable and appreciate your patience and flexibility during these impacts.
