POSTPONED - Foundation Pour - Early Morning Work Hours

Good news is the first foundation pour for the multi-sport court happened early this morning and everything is looking wonderful. The bad news is there is lots of rain in the forecast and the previously scheduled pours that were to happen Thursday and Friday of this week, will need to be postponed. Currently, it looks like the weather will break late next week. As soon as we have updated pour dates, we will send out a new notice.

Thank you all for your patience during this work and through these ever-changing dates.
