

Foundation Pour - Early Morning Work Hours

The weather has cleared and the foundation pours have been rescheduled. The final two dates have shifted to the early morning hours of **Wednesday, May 8th and Friday, May 10th beginning at 5am.** The concrete trucks will use the main Ko-Kwel Wellness Center entrance to enter/exit the site as the Secondary entrance will be closed. The trucks will be backing into the site for these pours and back-up alarms will be heard as well as the noise of the trucks themselves. The site will be lit with work lights directed towards the Ko-Kwel Wellness Center to avoid lighting neighboring residences. Crews will do their best to keep noise and disruptions to as little as possible.

We recognize that these disruptions are uncomfortable and appreciate your patience and flexibility during these impacts.
