Advancing and Elevating Housing – a conversation with CIHA	NA	NA
--	----	----

PROBLEM PROJECT WILL ADDRESS	Housing security and stability is a core component of health and well-being. It has long been identified as a critical priority for Tribal citizens. The 2039 community survey identified Housing as a top need. The Tribe currently offers housing programs for its low-income citizens but wants to become more responsive to membership needs at all income levels. This project introduces the conversation to explore opportunities, information sharing, and consultation needed for creating and implementing expanded housing programs.
PROJECT GOALS	<ol style="list-style-type: none"> 1. Establish the framework for a joint conversation with the Tribal Council and the CIHA Board to share thoughts and ideas around housing growth and development; 2. Establish an opportunity to engage with CIHA to discuss Tribal master planning and potential gap analysis to help prioritize housing support; 3. Identify ways to plan to provide additional Tribal resources to increase housing opportunities for Tribal citizens of all income levels; 4. Identifies pathways forward that can lead to Tribal budget opportunities necessary to advance CIHA strategic planning and programming.
