

Job Title: Opioid Treatment Program (OTP) Licensed Practical Nurse
Department: Behavioral Health – OTP
Reports to: OTP Nursing Supervisor
FLSA Status: Non-Exempt
Salary Grade: \$28.73 – \$39.23
Location: Eugene, Oregon

This position is a covered position as defined in the Coquille Indian Tribe Chapter 185 Child Protection Ordinance. Candidate must pass a pre-employment drug screen and Criminal and Character Background Check.

SUMMARY OF MAJOR FUNCTIONS

Under the direct administrative supervision of the OTP Nursing Supervisor and the clinical supervision of the OTP Medical Director, the OTP Licensed Practical Nurse provides patients appropriate healthcare by working with medical providers and other multidisciplinary departments. The position collaborates with the administration and providers in creating standard operating procedures to ensure care and safety of patients and employees. This position is responsible for daily methadone dosing for KWC OTP patients. OTP Clinic hours are Monday through Friday 5:30am to 2:30pm and Saturdays 5:30am to 10:30am. Hours may vary depending on patient and clinic needs.

ESSENTIAL DUTIES AND RESPONSIBILITIES

1. Triage medically related phone calls.
2. Responsible for administering and dispensing the proper dose of methadone to each client per order given by the prescribing licensed provider consistent with KWC OTP policy and procedures, and applicable federal, state, and tribal law, rules and regulations.
3. Perform screening and nursing assessments of clients; update charting regarding client's progress, including monitoring of symptoms and response to medication.
4. Communicate with providers and appropriate team members to assure coordination of care.

5. Provide compassionate, trauma-informed, patient-centered, high-quality healthcare to clients.
6. Monitor supply levels of methadone and order medications for the OTP; receive medication shipments following appropriate policy and procedure.
7. Perform medication inventory control and audits as required.
8. Check Prescription Drug Monitoring Program regularly for KWC OTP patients and as outlined in KWC policy and procedures.
9. Complete required training and assignments in a timely fashion.
10. Provide patient education about medications and treatment.
11. Complete all clinical documentation in a timely, confidential, and patient-centered manner.
12. Assist medical providers in delivering medical care for clinic patients, as well as assist with diagnostic and therapeutic procedures as assigned.
13. Assist in the provision of emergency medical treatment as part of clinic's rapid response team; maintain emergency/crash cart.
14. Room patients and obtain preliminary vitals and health history; make nursing assessment recognizing the range of normal and the manifestations of common abnormalities.
15. Perform established routines and medical protocols, laboratory tests, diagnostic procedures, and consultation services; draw blood; collect urine or other bodily fluids; and perform various rapid lab tests.
16. Administer medications as prescribed and directed by OTP Medical Director or KWC medical providers.
17. Assist with new patient intakes; record medical and surgical history of patient.
18. Provide patient education regarding self-care, treatments, medications, medical conditions, nutrition, and preventive health tests.
19. Assist with creation and updating of medical standard operating procedures.
20. Increase management effectiveness by assisting with orienting and training assigned staff; reviewing work and providing performance feedback as directed.
21. Assist with preauthorization for Purchase and Referred Care and health insurance as necessary; obtain prior authorizations.
22. Respond to telephone messages and faxes.
23. Perform functions of a Medical Assistant or Lab Technician in their absence as needed.
24. Coordinate care professionally, effectively, and appropriately with other KWC departments (primary care, behavioral health, pharmacy, etc.) and outside agencies as indicated.
25. Administer medication, conduct and document drug screenings, review and flag positive results, and coordinate random screening schedules in compliance with program protocols and regulations.
26. Learn and support any other necessary roles, responsibilities, or functions for efficient operations of the Opioid Treatment Program.
27. Perform other duties as assigned.

The above statements reflect the general duties considered necessary to describe the principal functions of the job as identified, and shall not be considered a detailed description of all the work requirements that may be inherent in the job.

PHYSICAL REQUIREMENTS

Requires the ability to communicate orally; repetitive movement of the wrists, hands, and/or fingers; often requires walking, standing, sitting; raising or lowering objects; climbing or balancing; stooping, kneeling, crouching, or crawling; and occasionally requires lifting up to 25 pounds. Work is generally performed in a medical clinic or office setting. Work involves exposure to hazardous materials, high-risk/dangerous situations, infectious disease, dust, fumes, and allergens. The individual must perform the essential duties and responsibilities with or without reasonable accommodation efficiently and accurately without causing a significant safety threat to self or others.

REQUIRED KNOWLEDGE, SKILLS, AND ABILITIES

Individuals must possess the following knowledge, skills, and abilities or be able to explain and demonstrate that they can perform the essential functions of the job, with or without reasonable accommodation, using some other combination of skills and abilities.

1. Excellent oral and written communication skills; ability to consistently convey a pleasant and helpful attitude using excellent interpersonal and communication skills to manage stressful and emotional situations.
2. Knowledge of medical equipment and instruments to administer patient care, including EKG machine, PFT machine, AED, and Nebulizer.
3. Ability to operate an electronic health records system and/or electronic patient management system.
4. Ability to foster an inclusive workplace where diversity and individual differences are valued and leveraged to achieve the vision and mission of the Coquille Indian Tribe.
5. Capacity to develop the ability of others to perform and contribute to the organization by providing ongoing feedback and opportunities to learn through formal and informal methods.
6. Knowledge of medications and injection procedures.
7. Ability to assess the specific age-related needs of patients.
8. Possess awareness and sensitivity of Indian traditions, customs, and socioeconomic needs and ability to work effectively with diverse cultures.
9. Knowledge of regulations on the confidentiality of medical records and Personal Health Information in alignment with HIPAA and CFR 42 Part 2 standards.
10. Knowledge of medical terminology.
11. Ability to maintain professionalism, confidentiality, and objectivity under constant pressure and crisis situations.
12. Ability to make decisions independently in accordance with established medical protocol, standing orders, and policy and procedures.
13. Ability to work collaboratively in a team.

14. Exhibit computer literacy sufficient to use word processing, spreadsheets, and databases to produce correspondence, documents, and reports.
 15. Ability to read and understand complex documents and manuals, as well as write such documents for use by others.
