KILKICH AREA PLAN

Updated November 2026

PROJECT OVERVIEW

The Kilkich Area Plan supports the Ko-Kwel Nation 2039 Vision, shaping the long-term future of our community.

It builds on existing development at Kilkich, which includes North and South parcels, and focuses on housing, services, land use, and transportation.

This plan will guide future use of the North and South parcels: less than 200 developable acres.

We need your help: On the last pages of this document, share your ideas to help shape Kilkich's future!

PROJECT PHASE

PHASE 2

Final Plan (October - January)

The final phase turns ideas into an actionable plan. We'll prepare a comprehensive document that includes maps, design standards, and a phased implementation strategy with funding options. This plan will be ready for adoption by Tribal leadership and will serve as a roadmap for creating a vibrant, sustainable community, built by and for the Coquille people.

PROJECT DETAILS

COST
$250,000
ODOT grant funded

COMPLETION DATE
January 2026
